DETAILED ACTION

Allowable Subject Matter

1. Claims 1-17 are allowed.
2. The following is an examiner's statement of reasons for allowance: The prior art does not disclose or suggest the claimed "rigid member having a higher degree of rigidity than said flexible wiring board and disposed on said flexible wiring board in contact with at least said end portion, on a side of said end portion opposite to that which is jointed to said row of terminals" in combination with the remaining claim elements set forth in claims 1 and 17 and their dependent claims. More specifically, it is the flexible wiring board jointed to the row of terminals on one side of its end portion and contacting the rigid member on the opposite side of the end portion that distinguishes the instant invention from the cited prior art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
